

Canada 150th Logo Painting a HUGE Success

On Saturday August 26th, North Battleford residents came together to paint the Canada 150th Anniversary Logo at the intersection of Clements Drive, Hamelin Street and Bunce Crescent. It was a festive event with people of all ages painting the Community Street Mural. From setup to completion the project took around 4 hours to complete.

City Planner Ryan MacKrell states “It was great to see the community come out and work together towards a common goal and get to know each other. This is a unique opportunity where residents will see the outcome and benefits of the project everyday as they go to and from their house. Projects such as this are part of an overall community safety strategy that both beautifies the community and gives residents a sense of ownership as well.”

North Battleford thanks Discovery CO-OP for donating supplies for the Mural. Also, we would like to thank all the residents who came out to make this happen!
