

Come Paint the Canada 150 Logo

A mural painted on the side of Moon's Kitchen & the logo to be painted on Clements Drive at the Hamelin Street and Bunce Crescent intersection.

Residents are invited to the intersection of Hamelin Street and Bunce Crescent in Fairview Heights on August 26th, 2017 from 10:00 A.M. until 2:00 P.M. to paint the Canada 150 logo. There are many reasons North Battleford has partnered with Discovery CO-OP to make this happen. Street Art such as this has been proven to slow traffic down as motorists take in the mural. Also, it is an opportunity to meet people in your area and beautifies public spaces in our Community.

This event will be come and go as you please, paint as long as you like or just socialize with your community. Food and water will be provided, additionally all the painting supplies have been provided courtesy of Discovery CO-OP. curtsy

The Community Street Mural is the latest in a series of CPTED (Crime Prevention Through Environmental Design) projects in the City. CPTED is a multi-disciplinary approach to deterring criminal behavior through environmental design. It is an approach that was initially developed in the 1960's and has expanded and developed over the decades to now where it has gained wide international acceptance. North Battleford uses these methods as part of the overall **Community Safety Strategy** to build a stronger and safer community for everyone.
