## Housing Strategy and Action Plan

The City of North Battleford remains committed to addressing housing issues within the community and surrounding region. Building upon the 2015 Housing Study, the City of North Battleford is now partnering with V3 Companies of Canada for the development of a 10-year Strategy and Action Plan. This plan serves as an essential document to start solving housing issues in the community.

A key step in this process is to highlight a wide range of potential housing programs, policies and actions which may be recommended as solutions to City Council in early 2018.

The City of North Battleford, and housing stakeholders are seeking the public's opinion and views on these potential solutions. In order to get feedback on the various solutions, an online survey has been created.

Take the survey at: <https://app.civicy.io/survey/north-battleford-housing-strategy-survey>

Participants in the survey will automatically receive a chance to win 1 of 10 Free Family Passes to the Co-op Aquatic Centre.

For further information about this survey, please contact:
