

North Battleford's Plan for Snow Removal

City Graders worked throughout the day and into the evening and are targeting high traffic areas of downtown and other priority roads. Roads will be plowed to the middle of street and leaving windrows which will be cleared next week.

The City also plans to have crews working over the weekend to get the downtown completed. Neighbourhood parking restrictions will be strictly enforced next week as the residential streets will be cleared.

Residents are reminded to clear their sidewalks and that clearing snow from driveways into the street is not permitted.
